Final Website Proposal

Web Dev - Valeria Pinto

Continue Midterm

Changes I want to make:

- Make home page interactive with jquery

- Finish all pages of my website

- Make about page interactive as well

- Add resume available to download

- Add icon in the tab bar

- End goal: make site competitively professional with interaction design

Make home page interactive with jquery

- Present photographs in an interactive creative way

- Add animations

- Make the home page an experience

- Show photography, graphic design and coding skills all in one

- Add loading interactive page

Examples

Portfolio type + good color scheme: https://www.beoplay.com/landingpages/ss17#intro

Great transitions and interactivity: http://muffingroup.com/youknowbetter/#do-it

Aesthetic and graphic design: https://conference.awwwards.com/speakers?utm_campaign=awwwards&utm_source=banner-4

Portfolio site sample: no nav bar inspiration: http://shantellmartin.art/

Smooth transitions from page to page: http://www.size.agency/work/

Idea for about page: https://www.odegoods.com/about/

Aesthetic inspiration: https://www.helloheco.com/

Loading page: http://mitchellbarton.com/

Different way of showing photographs: http://www.annamorosini.it/en/
